

Protective Barrier Solutions

As state governments relax requirements to stay at home amid the COVID-19 pandemic, it is the duty of businesses and public establishments to maintain safe environments for their employees, customers and community. Power/mation now offers a standard selection of pre-assembled temporary barriers for rapid deployment.

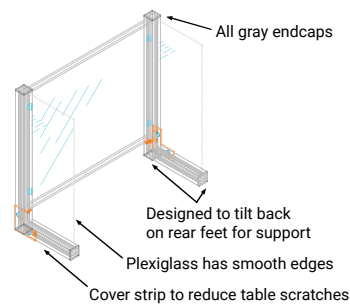

Barriers are assembled in the USA with high strength aluminum and plexiglass components. The in-stock styles below are available to ship within three business days from our Pewaukee, Wisconsin location. Fully custom barriers are also available to order from Power/mation Solutions Group.

Small Tabletop Unit - \$190

24"W x 24"H x 11"D

Suitable for small areas where close human interaction is necessary.
